State Board of Canvassers,

In America, we the voters pick our leaders -- our leaders don't get to pick and choose who they listen to and who they silence. And in our democracy, "We The People" means voters of every color and creed, background and zip code, no exceptions.

Michiganders from the Upper Peninsula to Detroit turned out in substantial numbers and elected Joe Biden by an overwhelming margin of 154,000 votes.

I'm writing because you have a sworn duty to certify the election and uphold the will of the voters. Any attempt to derail certification would violate your sacred oath and our rights as voters.

The United States has always conducted a democratic transfer of power, passing the baton from one leader to the next regardless of party.

I hope you will live up to your sworn oath and uphold the will of Michigan voters by certifying their results today.

Subject: Certification of Nov. 3, 2020 election

CAUTION: This is an External email. Please send suspicious emails to abuse@michigan.gov

The general election on November 3, 2020, brought out a record number of voters in Michigan. Joe Biden won this election by a margin of more than 154,000 votes, making their decision clear. Donald Trump and his campaign challenged this decision in the courts citing voter fraud and every one of the cases has been thrown out for lack of evidence. All of the county Boards of Canvassers have legitimately certified the results of their elections. Your job now is to certify the state's election with Joe Biden as the winner. This is not the time to let politics taint the public's trust in the integrity of our electoral process. Please vote to certify Michigan's votes for all the candidates who won the general election, whichever party they belong to.

Sincerely,

Margaret Minnich

Asking that you not certify the national election results.
I ask for a comprehensive independent legislative audit which verifies all signatures.

We need election reform!

There was negligence in training.
Signatures were not verified.
Chain of custody was not secure.
There was faulty, outdated equipment.

Sincerely,
Sharyl Van Vechten

State Board of Canvassers
elections@michigan.gov

Dear Board Members,

Under state law, once all 83 counties in Michigan have certified their election results, you are entrusted with certifying the results. It's a simple clerical process that must legally occur before any auditing can occur. I hope there will be an audit so all Michiganders feel confident in the election results, but that can't occur until you vote to certify the election.

Failing to certify on Monday won't change the outcome of the Election, but it will confuse the public and undermine confidence in our elections, which is bad for each and every American, regardless of political party.

The 2020 Presidential Election in Michigan was decided by 14 times more than the 2016 Election. Not only that, but turnout in the city of Detroit in 2020 was nearly identical to 2016 and President Trump performed better in Detroit in 2020 than in 2016. Additionally, the absentee counting boards in the city of Detroit were overseen by Chris Thomas, former elections director to Republican Secretary of State Ruth Johnson and Terri Lynn Land. As Mr. Thomas reports, there were Republican poll workers in the room the entire time and enough to watch and monitor each counting board.

Our elections are so secure that you literally have to defraud another voter. If the election fraud were ever committed, we the voters would be the first to know because when we request our absentee ballot or go in to vote on Election Day, someone would have already fraudulently requested a ballot by mail under our name. Not a single Michigander has reported such an issue.

The Board of Canvassers swiftly certified those far narrower election results in 2016, and every other election in our state's history. Please do not be the first Board to actively attempt to undermine our democracy that you were entrusted with protecting.

As public officials, you were entrusted to uphold our democracy by voting to certify our election results. Please uphold that duty on Monday. The world is watching.

Sincerely,
Samuel Cheek

CAUTION: This is an External email. Please send suspicious emails to abuse@michigan.gov

Dear Republican Members of the State Board of Canvassers,

As an attorney, I have been trained to regard evidence as more than conjecture, more that "what someone said might be so." The standard should not be all that much lower in public affairs and official acts, than in a legal tribunal, should they? Nefarious or partisan motives and actions are not to be lightly assigned to apparently hard-working, honest volunteers, temporary workers and government functionaries who staff our polling places and counting centers, without convincing proof at the start. Particularized destruction of individual, institutional and community reputations, not to mention needless anxiety and conflict, is the awful result of refusing to certify the vote while calling for a belated, disruptive investigation unsupported by rigorously-state cause.

My own daughter has twice worked the polls, and I can tell you, it is bipartisan, detailed, stressful, long work, for little pay. While her precinct always balanced the numbers by painstaking recounting, this is not always possible, literally "at the end of the day." The discrepancies in Detroit are miniscule and a moonshot away from outcome-determinative. Minor poll log and ballot count differences, for example, are also quite typical of various jurisdictions around the state. So the question arises, why... why, would minor irregularities be singled out anywhere, much less in in only one place, the City of Detroit?

An after-the-fact audit might improve these minor flaws in the system, but simply calling for an investigation into whatever rumors have grabbed hold on social media or among partisan punditry, is not an excuse to throw an entire statewide election, with an apparent convincing margin of 154,000 votes, into doubt. This accusation of "massive" fraud disrespects every poll worker and clerk across our great State of Michigan. Note that in 2016, this mud-slinging was not suffered, though the apparent margin... no, let us admit, THE margin... was in the range of a mere 11,000 votes. Why, then, this disruptive, ill-timed, suspiciously targeted and flimsy challenge to the result? Introducing mere doubt and suspicion seems to be the point, and that... that, is nefarious and partisan by all appearances.

We say, in real estate and consumer law, that fraud is easily alleged and notoriously difficult to prove. The Trump campaign, in court, has stopped short every time of alleging fraud, much less presenting evidence to a judge. They have withdrawn complaints or cases pursued to a determinative hearing have been rapidly dismissed, often with scathing criticism of the campaign's effort. Affidavits of partisan poll observers and others have not adequately alleged anything actionable, period, according to the courts. And let us not criticize those learned and experienced referees here, some of whom are Republican appointees.

Even as a partisan advocate (which no Board member should act as) one must have proof in hand capable of presenting to a tribunal or to an investigative journalist, say, proof that one could present without getting criticized or sanctioned, before arousing so much as a suspicion of fraud. One should avoid such libelous acts, even when one is acting in such a way as to shelter oneself from liability for casting unfounded aspersions. This is what good faith and personal and professional responsibility requires.

Finally, your certification is merely a ministerial act, now that every clerk and every county have certified the results. Your duty could not be clearer. Engaging in some kind of civil disobedience, or merely symbolic act, is not what your duty, nor your place in history, requires of you at this moment. Protect your own good name in this.

Yours Sincerely,
John D. Erdevig
Attorney at Law

SUBJECT: STOP THE STEAL IN MICHIGAN - ***DO NOT CERTIFY THE VOTE***

Dear Michigan State Canvassing Board:

I am writing to ***urge you not to certify the election results of the 2020 Presidential Election*** until all investigations, forensic audits and exams are completed. In addition, we must see all legal cases that are before our State and Federal courts comprehensively processed on behalf of a fair election.

As you are aware, endless amounts of mail-in-ballots arrived at TCF between 3:00-4:30 am on November 5, 2020. These ballots were not observed by both parties, as required by Michigan law, but were brought in from the back door of TCF when "all counting was stopped" and most challengers were sent home. Michigan law states that all votes and absentee ballots must be completed by 8:00 pm on election day. This did not occur.

Federal and local legal teams have collected hundreds of signed and notarized affidavits of fraud, computer "errors" and proven transferral of votes from President Trump to Joe Biden. There are written affidavits confirmed by sworn oaths of poll workers, that challengers were kept 10-25 feet away from tables being "viewed". Also, outlined are eye witness accounts of voters being told to select Joe Biden on their ballot then being followed to the voting booth to ***"help" them cast their ballot for Joe Biden***, under the watchful eye of the election/poll worker. Senator Colbeck verifies that he was barred from re-entering the building to view military ballots, along with noting that approximately only 40 Republicans were allowed in to try and cover 134 tables. These statements need no further explanation. It is all illegal, unconstitutional and therefore uncertifiable!

There are more damaging examples of willful corruption and negligence surfacing every hour. Most recently, the Republican Canvassers in Wayne County were publicly harassed, threatened and promised a comprehensive audit to change their vote on certifying the results, only to be made a mockery of by Secretary of State, Jocelyn Benson, stating almost immediately that there would be NO AUDIT of the vote. The outrage is measurable by we the people who believe in the law and constitution. A 71% tabulation discrepancy is NOT acceptable.

At this point, I do not have trust or faith in the results from these sham canvassing processes that have been completed in many counties of Michigan, but most egregiously in Wayne County, Michigan. This election has been stained by too many issues and suspicions to be legally certified, and I am counting on you to STAND UP STRONG for the law and the oath you took to uphold the Constitution of the United States of America.

Thank you for standing up for Michiganders.

Dear Canvassers,

I am extremely concerned about the signatures not being verified in this most recent election. A certified full comprehensive audit must happen. I believe that there have been issues with training of election workers and implementation of election duties. I am convinced there have been irregularities and comprehensive election reform needs to be done.

Thank you,

Subject: Certifying Election Results

CAUTION: This is an External email. Please send suspicious emails to abuse@michigan.gov

Dear Michigan State Board of Canvasser's,
I am writing to you for a number of reasons.

The first is while we all want to be heard today your system is flawed.

Friends of mine signed up to speak 3 minutes after the link went live.
They came out in 125th place.

Not sure how that's possible but nonetheless it happened.

Next and for the record:

I am John Parkinson Macomb Township Macomb County Michigan resident.
I'm speaking on behalf of my family and myself.

In any job there are always tough decisions to be made. However we hope that you hold your jobs with the utmost integrity we come to expect.

We the people know and have proof the chain of custody during this years election has been broken.

We the people know that ONE case of fraud or impropriety should be enough to help you make your decision in this matter.

We the people ask you based on more than one piece of evidence and improprieties ask you to NOT certify this election.

Please in doing so consider your oath of office and the great people of this great state of Michigan.

Thank you,
Sincerely,
John
Parkinson

State Board of Canvassers,

In America, we the voters pick our leaders -- our leaders don't get to pick and choose who they listen to and who they silence. And in our democracy, "We The People" means voters of every color and creed, background and zip code, no exceptions.

Michiganders from the Upper Peninsula to Detroit turned out in substantial numbers and elected Joe Biden by an overwhelming margin of 154,000 votes.

I have been watching the election results fairly closely and I do not believe there are any significant irregularities that would justify an audit. Please do not waste funds that could be used far better for many urgent needs on an audit.

The COVID crisis means Michigan needs every penny and more for basic services, etc. Do not waste our taxes on something that is at best frivolous and at worst anti-democratic.

I'm writing because you have a sworn duty to certify the election and uphold the will of the voters. Any attempt to derail certification would violate your sacred oath and our rights as voters.

The United States has always conducted a democratic transfer of power, passing the baton from one leader to the next regardless of party.

I hope you will live up to your sworn oath and uphold the will of Michigan voters by certifying their results today.

Subject: Certification of election results

CAUTION: This is an External email. Please send suspicious emails to abuse@michigan.gov

To the Members of the Board of Canvassers:

Thank you for taking the time to read the thoughts below. First of all, I'd like to note that I understand you all may have received threats and other messages regarding this process. I am very sorry you are having to live through this along with all the other stress many of us have particularly right now.

However, this process is not really intended to be political in a partisan sense. Your role in this process is not to select winners and losers, or even candidates. The primary purpose of this step of the process is to review the work of the hundreds of people that risked their health and possibly their lives to help insure we could conduct a fair election during a global pandemic. Although it is difficult, you should not listen to the partisan bickering and ongoing rhetoric from both sides still trying to change the results of an election that has already occurred.

So, politics aside, your role is to determine if the 2020 election in Michigan is to be certified. You have had the same or similar deadlines in all recent elections and there is no reason to allow more time for this process than has been previously necessary.

At this point, neither side has presented any evidence publicly or to any courts that proves any irregularities or maleficence. The courts have already determined this to be the case by dismissing the cases or asking that they be withdrawn. Neither side should be asked to prove the absence of these events as proving something did not happen is usually impossible. Moreover, it is the responsibility of the parties or persons making accusations to provide proof. Almost 3 weeks have passed since the election and no plausible or substantial evidence has been provided. I assume you meet so long following the election to allow for this process, and it is now complete. Two more weeks will only further de-stabilize the transition process and nothing new will be learned in that time.

So, now to the question of certification of the work of the many officials and volunteers that helped make this process possible. They should be commended. If there are any known issues with any of the work done by these people, they should have already been addressed with those individuals. Given the paucity of evidence suggesting reasons for doing otherwise, a failure to certify this election would be a tremendous disservice to all those that worked so hard to make it happen. Any dismissal of this work and overruling of the process diligently carried out by all these people would suggest that there was no purpose to this work. Instead, you should continue, as in the past, to rely on the thousands of person hours already invested in this process to ensure its validity and accuracy.

Thank you for your work. Please stay committed to the ideals of our American democracy.

CAUTION: This is an External email. Please send suspicious emails to abuse@michigan.gov

I am a registered Michigan voter and am requesting that you do not certify the votes in Michigan until a full Comprehensive independent audit is done. There are multiple discrepancies in the vote due to negligence in training and unverified signatures.
